

# PALESTINE

betrayal of the guilty conscience

# Introduction

A little boy changed my life. And a small stone shaped my path. An image of a young courageous boy armed with a stone facing a tank occupies my past. I still see it in my present. And preparing this work is a hope to help change the future.

Far I am. I cannot reach you my bereaved mother, my sad father, my little sister and brother. And you are besieged, surrounded, detached and abandoned by the apostate Arab rulers. But I am a student of the school of Usama - I am determined.

Our responsibility towards Palestine is that of support; to fight, shed our blood, kill and be killed until Palestine is free. The Mujahideen devoted their lives for just that, from 'Izzu-Deen Qassam, 'Abdullah 'Azzam, Yahya 'Ayyash to Abdul 'Aziz Ar-Rantisi - who all fought in Palestine. But in our times, it is next to impossible to join the Mujahideen brothers in Palestine because of the U.S. and Arab apostates around Palestine.

From here, I became a student of Usama: *"If you see that your enemy has protected his right ear and fortified it well, don't waste your time hitting the right ear. Cut off the left ear and he will die. The result is the same. The Americans are spread all over the world, and they don't have a doctrine like the Jews, who want to stay in Palestine."* So Usama - may Allah accept him - hit the left ear, and when he got the chance, he hit the right ear.

The statements, views and strategies expressed herein are those in line with September 11, Muhammad Merah Operation, the Brussels Museum Shooting and Boston Bombings. This booklet is a collection of statements regarding this school plus a couple of ways to arm yourselves. This work is prepared to help the reader find a way to support his Muslim brothers in Palestine and Gaza.

# PALESTINE IN FOCUS

focus on palestine from previous Inspire Issues

All praise is due to Allāh, the operation of `Umar al-Faruq – may Allāh hasten his release – is a strong blow to the coffin of the American economy and is a slap in the face of the American security apparatus. He reached his destination and was able to break through all of the strict security barriers after passing through a few airports and was searched in them. But through the blessing of Allāh, all security equipment failed to display his explosive device. The message we intended on sending to the Americans is: "America will never enjoy security until we live it in Palestine and it is not fair for you to enjoy life while our brothers in Gaza are going through a difficult life."

**Sheikh Abu Baseer,**  
**An Interview with Sheikh Abu Baseer,**  
**Inspire Issue 1**

... We were listening to the news attentively since the Shaykh told us the operation would be soon, "So keep your ears close to the radio". A few hours later the world was struck with the news of September 11<sup>th</sup>. We couldn't believe it at first. We had humiliated America and struck it on its soil using its own planes as weapons. We damaged its economy and weakened its strength and we had them drink from the same cup they have been having our *ummah* drink from for years. Now we were equal, sending the clear message: We kill from you as you kill from us and as you strike terror in us we strike terror in you. That was a special day. The Mujahideen were happy and they were happier when they saw the celebration of the Muslim *ummah*, especially our brothers in Palestine. The issue of Palestine was one of the main reasons for us attacking America. We

wanted to take revenge for our brothers and sisters in Palestine by striking at the nation that is the reason behind the existence of Israel. It became clear to the close and far that the Mujahideen are able to take revenge and defend the *ummah* even though they are undersized in numbers and provisions.

**Uthmān Al-Ghāmīdi,**  
**My Life in Jihād, Inspire Issue 2**

In individual secret Jihad, the operational activity also takes place on a global and universal horizon. The horizons for this operational activity open up regardless of borders and countries. The enemy occupies Irāq and we fight there, the same in Palestine now ... It became a duty for the Mujahideen in Tunisia, or Morocco, Indonesia ... to go to Irāq to rush to their brothers' aid...however, few are probably able to do that, and it will become harder with time, because the apostate regimes in the areas of confrontation cooperate with America against the Mujahideen. But any Muslim, who wants to participate in Jihad and the Resistance, can participate in this battle against America in his country, or anywhere, which is perhaps hundreds of times more effective than what he is able to do if he arrived at the open area of confrontation.

**Abu Mus'ab As-Sûri,**  
**The Global Islamic Resistance Call, Ch.8 /Sec.4**

Islam does recognize changing through force and that is what fighting *fi sabilillāh* is. Today we cannot expect Palestine, Irāq or Afghānistān to be freed again except by force. Israeli and American aggression cannot be met with pigeons and olive branches but must be met with bullets

and bombs. It is through the heroic acts of the Palestinian martyrs that Israel had forsaken its dream of a greater Israel and retracted upon itself behind walls and barriers. It is because of these operations that Ariel Sharon unilaterally pulled out all Jewish settlements in Gaza. The strategy of the Palestinian resistance succeeded in exhausting the enemy and forcing it into giving concessions. It was not until internal differences within the Palestinian rank that the tide turned again in favor of the Israelis.

**Sheikh Anwar Al-'Awlaki,**  
**The New Mardin Declaration, Inspire Issue 2**

The fact is, Barack, if you ever decide to get serious about improving America's security, protecting the American people, and preventing a sharp rise in the number of American casualties at home and abroad, and in the air, at sea, and on land, then there are a number of simple, sound and effective steps which you can take, which can go a long way towards achieving those goals.

The Muslim Mujahideen defending their faith and brethren against your nation's evil doing have repeatedly made clear these steps, but because I suspect you have been living in the Ivory Tower and information vacuum in which arrogant Washington insiders like you often live, I shall summarize these steps here. I strongly suggest you heed and implement them for your own good and the good of your people. First: you must pull every last one of your soldiers, spies, security advisors, trainers, attachés, contractors, robots, drones and all other American personnel, ships, and aircraft out of every Muslim land from Afghānistān to Zanzibar. Second: you must end all support, both

moral and material, to Israel. And bar your citizens from traveling to occupied Palestine or settling there. And you must impose a blanket ban on American trade with the Zionist regime and investment in it. Your security will not be improved by empty threats like those your special envoy made about the possible suspension of American loans, in and of itself, a largely meaningless gesture. As Sheikh Usāma told you, if you don't heed our warnings and stop your support of Israel, we will have no choice but to continue to use other ways to get our message across.

**As-Sahāb Media's release,**  
**'Legitimate Demands 2: Barack's Dilemma'**

So now when we look at the state of the Americans and Europeans, we see that they are in a state of war with us because of their participation in elections that choose governments that wage war against Muslims. They are in a state of war with us because their governments kill our brothers in Palestine, Afghānistān, and Irāq.

**Sheikh 'Adil 'Abbāb,**  
**Q&A with Shaykh 'Adil 'Abbāb, Inspire Magazine Issue 4**

There could be no freeing of Palestine with the presence of the likes of King Abdullāh to the East, Hosni Mubarak to the West and Al-Saud to the South. Now that Hosni is gone, we heard the Imām of the Friday prayers praying: "O Allāh we ask you to allow us to meet in Al-Aqsa," and the millions in Tahrir Square roared with one voice: Amīn.

The issue of Palestine is central to the Muslim *ummah* and now that the masses have spoken, there is no doubt that it will be back to the forefront.

The friends of the West are leaving, the issue of Palestine will be back on the table, the preaching of Jihad for the defense of the Muslim *ummah* will be heard publicly in societies that have freed themselves from the tyrants, and we pray that the heavy handed security measures imposed by the despots to keep America and its allies safe and keep their populations terrorized will be over.

**Yahya Ibrāhīm,**  
**Letter from the Editor, Inspire Magazine Issue 5**

My Muslim brother, indeed those brave ones who have jealousy and concern about their religion and their ummah have recorded their stances towards their religion and the affairs of their *ummah*, so we consider them from those who won in their worldly life and their Hereafter. And you, my honest brother, are no less than them in respect of jealousy towards the religion and ability. If you go kill a group of Jews or Christians after hearing that an unmanned drone killed a group of Muslims in Waziristān, and another person kills another group of them after hearing the killing of his brothers and sisters in Palestine by the Israelis and so on ... an operation in their midst after each operation they commit against your Muslim brothers and sisters, if it were to be the case, would stop the striking, killing, occupation, humiliation and disgrace of our holy places that America and the West perpetrates.

**Sheikh Qāssim Ar-Reimi,**  
**An Interview with Sheikh Abuhureira, Inspire Issue 5**

The majority of Muslims today want to do everything but Jihad! When it comes to the situation of Palestine for example, they will do everything: write letters to their sena-

tors, hold public protests, give speeches, write books, make documentaries and give aid to the poor – everything except fight the enemies of Allāh that helped degrade the Palestinian people to that of cattle in a locked cage, waiting for their turn to be slaughtered! Is this how our Prophet ﷺ brought back the rights of the oppressed? That is answered by Ishaq when he told Dhirar: "The Mujāhideen are the ones who fight for what the Prophets have brought and strive to make the Word of Allāh the highest and the word of the disbelievers the lowest."

**Abu Sideeq,**  
**Imbeciles Who Justify Sitting, Inspire Issue 9**

But I tell you, O Jews. Indeed, we are coming for you from 'Iraq! We are coming from Khurasān! We are coming from Somalia! We are coming from the Islamic Maghreb! And the Yemeni reinforcement is enough for you!

**Sheikh Abu 'Umar Al-Baghdādī -**  
**may Allāh accept him**

We are in 'Iraq, a stone throw from the ascension point of the Messenger of Allāh peace be upon him. Therefore, we fight in 'Irāq and our eyes are on *Baitul Maqdis* (Jerusalem) which couldn't be liberated except by the Quran which guides and the sword to support. But sufficient is your Lord as a Guide and a Helper.

# PALESTINE: BETRAYAL OF THE GUILTY CONSCIENCE

Samír Khān

This<sup>1</sup> is not a historical analysis of the Israeli dilemma. Nor is this an endless list of crimes that the Israelis perpetrated against Palestinians, activists and foreign journalists. Rather, this is a spoken word from the heart of an individual that has been crushed by the cries and calls of the helpless, weak, downtrodden and oppressed people of Palestine. This is an honest reflection from a Muslim who discarded his American citizenship for the sake of sacrificing his life for the Cause of Allāh in order to channel this rage that the world witnesses nearly everyday. Don't think for a moment that my words are written here in hopes that an army of disbelief will come and 'save the day'. The utter reality is that no state army today would sacrifice their soldiers for a righteous and praiseworthy cause except the Mujahideen; the ones who left and continue to leave everything to protect their *ummah*. Here, I want to speak to you – the Muslim who professes the Islamic faith – on a subject that would make your guilty conscience beat harder than the pounding drums. No, this is not a story of an individual or an eyewitness account of the Israeli brutality; rather, this is an attempt to find my soul ... your soul ... amidst all the rubble, blood and madness.

Years ago, as an Islamic activist, I attended meetings, taught at classes, took part in anti-war protests, ironed my religious and political thoughts out on the internet and called people to Islam. I used to have lively discussions at my local *masjid* with Muslims of various backgrounds. We all certainly had our differences on various subjects, but when it came to the subject of Israel, there was never a disagreement. Every one of us knew that we would all be accountable on the Day of Judgment for our silence. It was the most distressing thought. That's because we all knew that what the majority of people were doing about Palestine – in terms of protests, speeches, writing letters to their senators and the likes – was in no way going to physically form an army to remove the Jewish state with an iron fist. Sometimes when I attended those protests, I would think about what the person next to me actually thought about in regards to picking up arms ... was that individual blind to this solution or did they honestly believe that their yelling and shouting was going to make the Israeli state disappear into thin air?

As time passed on, eventually talking became aching. When people brought up the subjects I used to explode upon, I would find myself exceptionally quiet. It was because I felt a deep sense of utter hypocrisy for just being a talker. I would tell myself that it's no longer worth it. I don't need to prove my views to anyone; I just needed to be a part of a cause that was changing the world stage.

If one knows that they have the ability to fight for the Sake of Allāh, then nothing should stop them. It's like knowing that you're a bird, yet you never flap your wings to fly. Instead, you remain as a chatterer who talks about the wings and how great they are; but you are not serious about taking it upon yourself to fly. When that realization kicks in, that's when you start to grasp your actual worth. The next step from thereon is to test yourself in seeing if whether or not you were truthful in your claim. This becomes hard for those who continuously worry about the consequences in this world more than the consequences of the next.

I remember those moments when I used to stare at my computer monitor in sorrow watching endless hours of the plight of our Palestinian people. I still remember when my mother would come into my room and see me either near tears or extremely upset and ask me, "Why do you watch these videos? They only make you more sad!" May Allāh bless her; she always wanted her children to be in a joyful

1947, then that guilty conscience kicks in. But for most of us, it's short-lived and we get on with our lives. It can be likened to the scene in the movie 'Hotel Rwanda' where the journalist tells the hotel manager about how the world would react to the genocide: "They'll say, 'Oh my God that's horrible,' and then go on eating their dinners."

In America, I would constantly remember from my readings on Salahuddin Al-Ayyubi how he wouldn't even laugh with his brothers; this wasn't because he was harsh hearted or cruel. Rather, it was because his heart was soaked from the ocean of his guilty conscience of, 'What am I going to do about it?' In other words, how can you live as a practicing Muslim and let this happen? A true Muslim, like Salahuddin, would stand up against the tide of blind followers.

Today, most of our scholars and leaders do not want us to be as such since Islam 'is not

**It can be likened to the scene in the movie Hotel Rwanda where the journalist tells the hotel manager about how the world would react to the genocide: "They'll say, 'Oh my God that's horrible,' and then go on eating their dinners."**

state. I would tell her, "I want to be upset [at the Israelis]. The more upset I get, the more I want to do something practical for the *ummah*." She couldn't understand my mentality; when I would drag her to watch a few seconds of a depressing clip from Palestine – such as the young girl who saw the aftermath of her entire family slaughtered on a Palestinian beach – her question was always towards why I would watch such mind-shattering clips if I already knew what was going on. I told her frankly, "These clips remind me of the reality of what is happening in Palestine. I may know what's going on there, but I want my heart to be a part of it. If I disconnect my soul from their plight, by turning my face away from their sufferings, then I become like everyone else: do nothing but hope."

I was not in search of grief or sorrow; nor was I hoping to achieve a state of constant sorrowfulness. Our religion does not permit this. Rather, I was attempting to be true to my Lord and myself on the plight of our nation. I wanted to shed those tears so that I would feel guilty not doing anything about our nation's dilemma.

I was upset with myself for the fact that I wasn't that attached to the Palestinian plight before. Before, I was only interested in establishing a caliphate, following an Islamic organization's guidelines on how to do so in a legal and peaceful manner! Where are the minds of our Muslims? Apparently it's in some gutter filled with other people that seek the protection of their own lives more than the protection of those that are being tyrannized by terrorizing weapons.

It doesn't matter who you are. If you are aware that the Israelis have been oppressing and repressing the Palestinians since

hard! Had someone had said that to Salahuddin during the Crusader occupation of Palestine, he would have turned his head away honorably and continued to work hard towards his goal no matter what the people said. *«Not fearing the blame of the blamers»* [5: 54]. Our scholars today are like the ones during his time who forfeited the battlefield after hearing about the large size of the Crusader enemy. Salahuddin didn't need them, but needed Allāh. Later, it was revealed that most of the Crusader army disbanded, and its chief leader killed in an accident. The Crusaders had no chance against the Muslim army.

Today, our scholars forfeit the battlefields around the world due to the fear of the enemy's size and superiority. But to everyone's surprise, it's the Mujahideen who have the upper hand. How many times have the Mujahideen witnessed the friendly fires amongst the enemy ranks? How many times have the Mujahideen witnessed earth shattering missiles that didn't leave even a scratch on their bodies?! How many times have the Mujahideen brought despair and destruction to the enemy with just one martyrdom seeker? The miracles that we witness on the ground are spectacular and truly send us the message that Allāh is on our side as He is a witness to our sincerity of the Islamic cause.

We all know that without America's financial support for Israel, Israel would simply not be in the powerful state that it is in today. As a Muslim, I couldn't live with the fact that my tax dollars were going to Israel to kill my own kind. Forget

that, I couldn't even live with the fact that I was residing under the greatest enemy today – the one who finances tyrants and launches wars of injustice in the name of protecting its 'freedom' – and live like everyone else. I would always tell myself that if I were to get 'settled down' in America, with a family, well off job, beautiful home and car and whatnot, then I would have lost my soul and have committed something much worse than suicide: I would be burying the truth with every tool in the book, so that I could live a life of relaxation whilst allowing the Israeli tyranny continue.

For me, it was either *hijrah* to the land of Jihad or Jihad in America. I could never picture myself doing something else than either of those. There really is no good to life when we see the Israelis bulldoze homes, rape chaste women, kill children with tank shells, drop phosphorous bombs on children schools, openly insult the Islamic religion, murder journalists in the broad daylight, drop groups of missiles on women who take refuge in their homes, murder innocent activists and tear apart bodies with rapid fire bullets. I cannot live with myself knowing this and turning out like the majority of the Muslims who turned their back on jihad; I refuse to die as

a 'normal' person who has a greater chance of entering the hellfire than the Mujahid who aspires to be a shaheed. So where is your heart in all this? Are you ready to take that chance ... take the chance of dying a 'normal' death, empty of Jihad and sacrifice? Do you actually consider yourself to be of those who worry about their status on the Day of Judgment? Did not the Prophet ﷺ speak of the shaheed with high respect and desire?

Ask yourself the question: Who is going to stop the Israeli oppression? The UN? America? A few protests around the world? A few letters to the senators? A few fiery speeches? Or is it going to be an honorable organized Mujahid vanguard, returning Islam to the rulership of the Muslim lands, seeking only the Pleasure of Allah? You can either dishonor yourself by ignoring the reproaching guilty conscious, or you can answer it, joining the long list of noble Muslims that threw their bodies into the valleys of death in the quest of seeking the Face of their Lord.

# “HATRED HAS ALREADY APPEARED FROM THEIR MOUTHS BUT WHAT THEY CONCEAL IS GREATER [3:118]

"In United States our support for Israel is partison and that is how it should stay"

"But as you examine my commitment ....you don't just have to count on my words ... You can look at my deeds. Because over the last three years as president of the United States I have kept my commitments to the state of Israel. At every crucial junction, at every fork in the road, we have been there every single time."

Barack Obama, the US President  
AIPAC SPEECH

"Our nation has been proud to stand with Israel from its founding sixty years ago. And I absolutely guarantee you, as long as there is a breath in me, this Government, this nation will stand with Israel. It's in our own naked self interest beyond it being an absolute moral necessity and commitment."

Joe Biden,  
The US Vice President

"Yes I think it is quite clear that our policies vis-à-vis Gaza developed in accordance with the behavior of the Gazans. Immediately after our withdrawal we were ready to have cordial relations to whatever government will take over Gaza and as a result of their terrorism we had to defend ourselves ... I think that they (the people of Gaza) are unfortunate to be ruled by terrorist groups and unfortunately civilians sometimes pay the price."

Efraim Inbar  
Begin-Sadat Strategic Studies Center

## Bowing to AIPAC, by Philip Weiss

The Senate yesterday unanimously passed a resolution backed by the Israel lobby group AIPAC expressing support for Israel's attack on Gaza and saying not a word about Palestinian deaths. The Hill says that the resolution passed "through a unanimous consent agreement." "The United States Senate is in Israel's camp," [South Carolina Senator Lindsey] Graham said on the Senate floor Thursday. The resolution describes Palestinian attacks on Israel as "unprovoked" and says not a word about Palestinian deaths, but speaks of the survival of Israel in urging the dissolution of the unified Palestinian government: Reaffirms the United States' support for Israel's right to defend its citizens and ensure the survival of the State of Israel...

Calls on Palestinian Authority President Mahmoud Abbas to dissolve the unity governing arrangement with Hamas and condemn the attacks on Israel. NJ Senator Cory Booker blamed Hamas for the violence:

"I strongly condemn the heinous attacks being perpetrated by Hamas and other terrorist groups against Israel. No country should have to live under a constant threat of aggression against its people, and I stand shoulder to shoulder with Israel as it defends itself against this shocking violence. My heart goes out to the citizens of Israel and the countless civilians in Gaza caught in this Hamas-initiated violence."

MJ Rosenberg says it's all about pro-Israel money, and that Senators have a double standard for US military actions and Israeli ones:

Note that even progressive saints Elizabeth Warren, Al Franken, Sherrod Brown, and Bernie Sanders found nothing in this to object to. For the record, no U.S. military adventure has had the support of all hundred senators in decades.

**But, hey, this is Israel.  
And, more important, this is  
AIPAC. And cash.**

# IRRATIONAL ALLIANCE

Abdur-Rahmān Ar-Rūmi

## The Benefactor

For a wealthy industrial state<sup>1</sup> with a military budget of \$16 billion, Israel receives from the U.S. a largesse too generous to be called military assistance. For those who are not familiar, the U.S. gives about a fifth of its foreign aid, \$3.7 billion, to Israel, about \$478 per capita while Israel has a GDP per capita of more than \$28,000. Real assistance is needed by countries like Niger and Somalia which have a nominal GDP per capita lower than \$478.

Israel also gets other special deals from Washington. Other aid recipients get their money in quarterly installments, but Israel receives its entire appropriation at the beginning of each fiscal year and thus earns extra interest. Most recipients of American military assistance are required to spend all of it in the United States, but Israel can use roughly twenty-five percent of its aid allotment to subsidize its own defense industry. Israel is the only recipient that does not have to account for how the aid is spent, an exemption that makes it virtually impossible to prevent the money from being used for purposes the United States opposes, like building settlements in the West Bank. Moreover, the United States has provided Israel with nearly \$3 billion to develop weapons systems like the Lavi aircraft that the Pentagon did not want or need, while giving Israel access to top drawer U.S. weaponry like Blackhawk helicopters and F-16 jets ... the United States (also) gives Israel access to intelligence that it denies its NATO allies and has turned a blind eye towards Israel's acquisition of nuclear weapons.<sup>2</sup>

## I Have Your Back

The U.S. has given Israel diplomatic support during conflicts and wars. Since 1982, the United States has vetoed 32 United Nations Security Council resolutions that were critical of Israel, a number greater than the combined total of vetoes cast by all the other Security Council members.<sup>3</sup> "There were also many resolutions that never came to a vote because Security Council members knew that the United States would veto them."<sup>4</sup> The same is happening in this current Israeli assault on Gaza. Reporting after a Security Council

meeting, James Bay, Aljazeera International diplomacy correspondent said: "I am told by diplomats that the discussion on that (ceasefire between Israel and Gaza) was quite productive to begin with, and then suddenly there seemed to be some problems and objections coming from the US after the various ambassadors consulted with their capitols. The US it seems from Washington had troubles with the language that was being discussed. So that statement, we are told is not going to happen, is not going anywhere."

And when there were 590 airstrikes on Gaza in 48 hours killing tens of women and children, Obama defended Israel's action, "No nation should accept rockets being fired into its borders, or terrorists tunneling into its territory." As if the women and children were behind the rockets and tunnels. And when 1700 deaths have been reported in Gaza, Obama gave Israel the green light to annihilate Gazans under the pretext of destroying tunnels. Then he added that Israelis have a hard time sleeping, because they are terrified<sup>5</sup>. Terrified by what?! Sirens? Israeli publicly announced that only two Israeli civilians and an Asian had been killed so far. On the other hand, 1800 civilians; Palestinian women and children lost their lives. This green light was given to a country known for its monopolization of constraint of the war it enters: "There also have been wars where the state and government of the losing side is annihilated and thus unable to formalize the passage from war to peace. Examples include the Jewish conquest of Israel ... In such cases, the only constraint on violence was the will of the winning side. It could choose to destroy the population of conquered territories - the Jews in Israel."<sup>6</sup>

To assert this support, the U.S. Congress approved to give \$225 million to support Israeli defense and Washington opened its doors to provide the Israeli army with munitions. This is not because they were out of bullets. Everyone knows that Israel's arsenal is far much greater than to be finished in a three-week confrontation. Therefore, this is just another way to tell the world, "We support Israel's ground operation in Gaza."

## Unintended Consequences

I've always liked to consider America's crimes in the Middle East as an action, and our retaliation as a reaction. But after reading some of Robert Merton's works I became convinced that the best concept to describe the relation of the two is 'unintended consequences' - not to be confused with John Ross's 'Unintended Consequences', the NRA chronicles.

America's support for Israel has been motivated by many motives - as per many analysts, pundits, experts, to have a bulldog in the region, to secure oil, religious protestants' pressure, lobbies ... That is not the Muslims' problem. The problem is not the motive, it is the support. America has a definite aim and a strong desire to back and support Israel, but it doesn't intend to be punished for its crimes. Fortunately, there is a vanguard of Muslims who couldn't turn a blind eye to the sponsor and protector of Israel. This vanguard has intended to make America pay the price - what I would like to call: intended unintended consequences.

This X-ray attack is the duty of every Muslim globally. America's interest are spread all over the world. Any Muslim in any country has a way to target America's interest. The U.S. has suffered these consequences, but for it to abandon Israel, it needs several more attacks inside and outside its territories. This could be done by a Mujahid group or a lone Mujahid. It is the responsibility of all to support our brothers in Palestine. And by the Grace of Allah, Israel without America is nothing.

Even on their own political and diplomatic platforms, America's support of Israel is still seen as an oppressive irrational alliance. Jason Johnson, a political analyst, says:

The United States has never had difficulty issuing tough talk to Israel, but none of that tough talk ever manifests its self in actual changes in economic or military relationship between the United States and Israel. What would take and what would actually have a huge impact on this conflict, is for the president to do something historic: for the president to step-up and pull back the military funding the United States gives to Israel. Israel has no incentive to come up with truly peaceful negotiations and solutions between themselves, the Palestinian authority or Hamas. Because they know at the end of the day that the United States will continue to fund them to the tune of Billions of dollars for the Iron Dome, soldiers, for flak jackets, for military equipment. If the president really wants to get involved, he does not have to fly over to Geneva and engage in negotiations ... All he has to do is zip-up the purse string for United States and that would force Israel back to the negotiations table.

The American public has become much less happy with Israel's behaviour and much more sympathetic to the plight of the Palestinians in Gaza in particular, is because it is ideological. The United States now has relative control of Iraq, relative control of Afghanistan; this is not because the US wants to have a foothold in the Middle East. It is because there is a large number of religious and ideological

conservative in the United States who feel that historically the US should have a protective relationship with Israel regardless of Israel's behaviour. So we are facing up against history and economic realities here, but unfortunately, people will continue to die and suffer while people in the United States gather about old policies that are no longer applicable to the world we are living in.

# BLOOD FOR BLOOD DESTRUCTION FOR DESTRUCTION

until we taste what Hamza bin 'Abdul Muttalib tasted

I also reassure our people in Palestine in particular that we will expand our Jihad – Allāh permitting. We will neither recognize the borders of Sykes-Picot nor the rulers whom colonialism put in place. By Allāh – We haven't forgotten you after the events of 9/11, for can a noble man forget his family? But following those blessed raids which struck the head and heart of global unbelief and the biggest ally of the Zionist entity, America, we are today occupied with attacking and fighting it and its agents, especially in Irāq, Afghānistān, the Islamic Maghreb and Somalia. And if it and its agents are defeated in Irāq – Allāh permitting – then it won't be long before the armies of the Mujahideen set out, brigades followed by brigades, from Baghdād, Anbār, Mosul, Diyālā and Salāhuddin to bring back to us Hittin, Allāh permitting.

And we won't recognize any state for the Jews, even if on one hand span of the land of Palestine, the way all the Arab rulers did when they adopted the governor of Riyadh's initiative a few years ago. And it wasn't enough for them to commit that major catastrophe until the people recently saw the shepherdess of surrender herd them in flocks to Annapolis, doing with them what the Americans did with their forefathers before, but not for them to be sold: no, for them to sell, and sell what? Sell Jerusalem, Masjid Al-Aqsa and the blood of the martyrs, and there is neither power nor strength except with Allāh. May Allāh do to them as they deserve. And with this, it was confirmed to the people who is trustworthy, who is a traitor, and who is it who is moved by Zionist hands:

*The wound of Al-Quds continues  
To irritate my side  
The burning of its tragedy is like fire  
Flaring in the gut  
I didn't betray the covenant of Allāh  
When the states betrayed*

In addition, we shall not respect the international charters which recognize the Zionist entity on the soil of Palestine, the way the leadership of HAMAS respect them, or the way some of the leaders of the Muslim Brothers stated. Rather, it is Jihad to liberate all of Palestine from the river to the sea, Allāh permitting, placing our hands in the hands of the truthful Mujahideen there from the foundations of HAMAS and the other factions who condemned their leaders for their deviation from the truth. So blood for blood and destruction for destruction, and I repeat the oath: by Allāh, we shall help you even if we have to crawl on our knees, until we taste what Hamza bin 'Abdul Muttalib tasted.

## FIGHTING ... OUR OBLIGATION Sheikh Hārith bin Ghāzi An-Nadhāri

Peace<sup>1</sup> and Mercy of Allāh be upon you. All praise is due to Allāh, and may His Peace and Blessings be upon His Messenger, his family and companions. As to what follows:

The Jewish nation remains to be the nation of treachery, betrayal and aggression. Among others, the Jewish nation have the most intense animosity towards the believers. Allāh the Almighty says: *﴿Verily, you will find the strongest among men in enmity to the believers (Muslims) the Jews and those who are polytheists ...﴾* [5: 82]

The aggression of the Jews against the Muslim *Ummah* is still continuing. In this holy month of Ramadhān 2014, the Jews are carrying out a treacherous assault on Gaza, tens of deaths (now exceeding 1200) and hundreds of injuries ... Before that, they set fire to the teenager Muhammad Abu Khudhayr until he was killed, may Allāh have mercy on him. Regarding this criminal act we say, Allah the Almighty has prescribed Jihad to retake the occupied land. Allāh the Almighty made Jihad an obligation to repel the invading enemy, who corrupts *deen* and *dunya*. As for the Jews, they have combined the two: They occupy Muslim land and spill the forbidden blood. So there is no other method of repelling the Jews apart from Jihad to retake all the occupied Muslim land: Al-Quds (Jerusalem), Haifā, Yāfa, 'Akka, Nablus, 'Asqalān, Baythān, and all others. The obligation upon the Muslim *Ummah* is not limited to ceasing the assault on Gaza, rather is to retake all of our occupied lands and expel the Jewish occupier.

To solve the Palestinian problem, Muslims have tried conferences, seminars, demonstrations, processions, setting up artistical and oratorical festivals and releasing statements of support of Muslims assaulted by the Jews. We have tried all these methods for more than 90 years, but we've never achieved any victory, we've never liberated any land. There is no way to liberate land and preserve honor, there is no way towards a noble life except by establishing the '*lbādah* of Jihad which Allāh has commanded. Allāh says: *﴿Jihad is ordained for you (Muslims) though you dislike it, and it maybe that you dislike a thing which is good for you and that you like a thing which is bad for you. Allāh knows but you do not know.﴾* [2: 216]

Indeed, the Jews are establishing their state by strength and war, and they will not be defeated except by strength and fighting. As for Muslims, all Muslims, are certain that there is no way to liberate Palestine except through Jihad. However, the empire of evil, America, prevents Muslims to fight by using its proxies in this war: the Arab regimes. The tyrants Arab rulers are the first to prevent Jihad against the Jews. They are the shield fortifying the cursed Jewish state. They are, because they are America's agents in the domination of the Muslim countries and preventing any resistance against the Jews and the Americans.

Indeed, the cursed state of Jews is nothing without the American aid and support. The Jews and the Americans are sharing the same trench in fighting the Muslim *umma*. So it is incumbent upon all Muslims to fight this Zio-Crusader enemy who has allied against the Muslim *umma*. The same way Muslims are obliged to fight and repel the Zionist Jews, they are obliged to fight America and their allies, the allies of the Jews in the killing of Muslims. As for the the Mujahideen, by the Grace of Allāh, are pursuing their Jihad against the Zio-Crusader campaign. Glad tidings of victory are spreading; Allāh has bestowed upon the Muslim *umma* a generation that does not know how to deal with an assaulting oppressor except by Jihad and fighting, and no banner except the banner of Tawheed.

O Allāh guide us and give us precision and victory over Your enemy. Ameen.

# Palestine ... Now The Battle Has Reached Its Pinnacle

Sheikh Abu Yahyā Al-Lībi

Standing<sup>1</sup> in the face of this Jewish - global - crime is done in two ways:

1. The stance of challenge, and the path of patience and determination, engaging in this battle with resolve, resolution and hitting the Jews and countries that support and provide for them, especially their economic interests, political institutions and military barracks. This is an obligation in which all of our Muslim brothers in Palestine and their Mujahideen supporters globally strive.

2. It is necessary for all to place everything in its right place, and confront every issue from the right perspective, and declare frankly and openly, without mumbling with shame, embarrassment or abashment, that the Palestinian issue is a pure Islamic issue that is measured with the Shari'ah scale, viewed with its vantage point, dealt with with its laws and fight for its liberation under its banner. In this war, there is no place for Arab nationalism, patriotism or international legitimacy together with all of its organizations, societies and resolutions. It is essential to totally purify the issue from all these impurities so that it stands on a strong foundation, a firm pillar that no one could manipulate or fool with.

O Muslims from East to West: you should all embrace and be certain that the waterfalls of your blood, scattering of your corpses, continuing of your woes and desecration of your houses - in all of this earth, not only in Palestine - will not cease or stop as long as the rein of power is in the grip of the kuffar West and the despotic Americans.

You won't be free from the furnace of tribulations and the series of adversities except by first placing your trust in Allāh (Tawakkul) and then Jihad in the Way of Allāh with determination, diligence, sacrifice, strength, ferocity, venturing and risking that befit the bearer of a creed that dictate: *And of*

*mankind is he who would sell himself, seeking the Pleasure of Allāh. And Allāh is full of Kindness to (His) slaves.* ﴿2: 207﴾ and that repeats with him the Word of his Lord: *Say: Do you wait for us (anything) except one of the two best things (martyrdom or victory); while we await for you either that Allāh will afflict you with a punishment from Himself or at our hands. So wait, we too are waiting with you.* ﴿9: 52﴾

He (who has the creed) should know while he goes to war that he is in a profitable business transaction which has no loss: *Verily, Allāh has purchased from the believers their lives and their properties for (the price) that theirs shall be Jannah: They fight in the Cause of Allāh, so they kill and are killed. It is a promise in truth which is binding on Him in the (Taurat) Torah and the Injeel (Gospel) and the Qurān. And who is truer to his covenant than Allāh? Then rejoice in the bargain which you have concluded. That is the supreme success.* ﴿9: 111﴾

This is easier for you, more beneficial to you, your *ummah* and your afflicted brothers in the besieged Gaza than tremendous protests which crowd streets in the cities, full of cries and appeals. Because the Islamic *ummah* is a nation of rare sacrifices, unique courage and support for the oppressed. Can this nation fail to present for us unique heroes from the school of 'Aqeedah to remind us what was written down by the lions of the Mumbai Massacre with their pure blood? How easy is that for he who has strong determination, Tawakkul on Allāh, and storm (the *Kuffār*) while he exclaims from within his chest:

*I won't express fear to the enemy  
Or anxious, because to Allāh I return  
I don't mind to be killed while I'm Muslim  
In any manner in the Cause of Allāh*

O Mujahideen around the world: rise like an angry lion, take up arms like the people of zeal and jealousy for their religion and honor. Spend what you can to make the Western and American cities and the tyrant lackeys taste what our oppressed brothers and families in Palestine suffer: An exact recompense.

No child killed in Palestine, woman widowed, blood spilled, corpses dispersed, house destroyed or disaster afflicted except its source is he who handed Palestine over to the Jews, settled them in its regions, and established their state on the land: It is the United Kingdom, and its evil declaration.

It is not possible for them and their European brothers to feel safe while our people are terrified! To live in comfort while our brothers are in distress! Their countries are built, while ours are destroyed! Their people are settled while ours are displaced! We are not the type that is being deceived by courtesies or devious statements. Because a wolf is a wolf.

Make them taste the woes of wars, the tragedy of displacement and the vexation of terror. *The sacred month is for the sacred month, and for the prohibited things, there is the Law of Equality (Qisas). Then whoever transgresses the prohibition against you, you transgress likewise against him. And fear Allāh, and that Allah is with the pious.* ﴿2: 194﴾

The time has come for this country - I mean the United Kingdom - to pay the price of its historic crime which we've never nor will we forget. So wait, we are waiting too!

And our final prayers is: All praise is due to Allāh the Lord of the Worlds.

## LIBERATING PALESTINE

There is no meaning to life when you see Jews do all sorts of things to your brothers, and women and children. We fast a day or two, shout in demonstrations until our throats are in tatters, then go back home as if we have averted harm from the children and lifted the blockade from Gaza and stopped the killing of the people of Palestine. No, demonstrations must be followed by explosions, and civil disobedience by military rage, and we must cut aid to the Zio-Crusader and kill those of the Crusaders whom we find on our land, and destroy Western interests until Europe and America stop their support of the Jews and stop the killing there and order their agents, the treasonous rulers, to open the border-crossings to Gaza and Palestine.

People must continue to apply pressure without pause until all of Palestine is liberated. They should not be distracted by imaginary solutions which stop the massacres today only for them to begin tomorrow fiercer and deadlier and for us to sell the blood of today for the peace of tomorrow. The revenge is great, so do not abandon it.

O Allah, make us liberate Bayt al-Maqdis and the Land of the Two Masjid.

# NO HESITANT ONE: IT'S AN OBLIGATION

This is a brief letter of motivation to Jihad in the Cause of Allāh which I leave in the mailbox of a Muslim who is wavering between the honor of going forth and the humiliation of staying behind.

Know, my brother, that I singled you out for this letter due to my conviction that you are the closest among all people to the Mujahideen in Path of Allāh. Almost no Mujahid goes forth to the fields of competition without passing through this stage of indecision and lingering. However, while for some, a few days, hours or minutes suffice, for others this stage goes on and on until even his entire life isn't enough for him to make up his mind. And don't think, my beloved brother, that your brother, this poor slave, isn't aware of your condition. I lived among you for such a long time that it is as if I am wandering around in one of the impoverished neighborhoods of your emotion, or resting my head on a cold sidewalk in the border zone between consciousness and unconsciousness where you have hidden the love of Jihad from sight and exiled it like a stranger without an identity or like a lonely heart searching for company. So I am calling to you from there, from the depth of your hearts, with words whose letters resemble pieces of my body which I scatter like severed limbs in the ether, for their echoes to reverberate in your ears forever, and for me to plant them like seeds in your consciences, in the hope that out of them will grow Jihad if I water them with my blood tomorrow. Oh, if only I had something other than these words with which to call on you, then I would have flown to you without wings, like a breeze which comes before the winds, in order to stand in front of each one of you, with my eyes looking into your eyes and my hands on your shoulders, to shake you and recite to you Allāh's statement, *«Unless you go forth, He will punish you with a painful punishment, and put others in your place. But Him you would not harm in the least.»* [9: 39]

Oh, if only I had as many souls as there are hairs on my head, so that I could send them to the minarets of all *masājid* in the realms of the Muslims, to call out to the people on the day of the weekly congregation, "O you who have responded to 'the call of prayers', there is no good in you if you turn your backs on 'the call of Jihad!'" Until when must love of Jihad remain confined to daydreams and private thoughts, only coming into view in slips of the tongue? Until when must this longing remain reduced to an embarrassed tear you shed when you see the tragedies of the Muslims, or a passing elation you experience when you hear a nasheed or read a poem? Until when must love of the Jihad remain just another one of those hobbies of yours. We're neither looking for discerning viewers nor the emotions of sympathizers: We're looking for you in our midst and if we don't find you, we shall continue to look, and look again. We shall target you with our media productions, laying for you emboldening

ambushes and plating motivational mines, in the hope that they will blow up on you as admonishments and reminders which will fill your souls with thoughts and inflame your hearts with a desire to join the caravan of champions.

And even if it means having to preoccupy ourselves entirely with you instead of our enemies, we will preoccupy ourselves with you until you join us. We shall continue to search for you and search again, sometimes like a beautiful dream which tempts you, and sometimes like a terrifying shadow which chases you, in order to disturb your peace and quiet and make your life miserable every time we remind you of your desertion of the Mujahideen. We shall send you coded messages whose meaning only you will understand, in newscasts, newspapers, and websites. Every report which talks about us you will read as if it is talking about you. Every discussion about us will seem as if it is complaining to Allāh about your staying behind us. You will hear your real names and see your photographs between the lines, among the words and behind the scenes, as you are now on the Mujahideen's most-wanted list. You will sense that the Mujahideen aren't targeting anyone else in this world other than you, and that they aren't inciting anyone to fight except you, until you join us.

You shall never find enjoyment in any of your habits, nor even in your acts of worship, as long as you continue to refrain from Jihad. We shall continue to search for you, and search again, until you join us.

My brothers in Allāh: Allāh has tested the *ummah* with idols who have led people away from their religion, and thus the *Sunnah* has been deserted and *bid'ah* has spread, and sound nature has been corrupted and Jihad in the Path of Allāh has become a reckless venture and gamble in the eyes of many among the Muslim laity; and human devils sit beside *jinni* devils on the pathways of the Muslim to turn him away from Jihad in the Path of Allāh, by telling him, "Are you going to perform Jihad in the path of Allāh, and get yourself killed, and let your wife remarry and your children become orphans?!" And by telling him, "To whom are you leaving your pretty wife?! Who will be dutiful to your frail mother?! Who will take care of your little child and your elderly father?! And how can you abandon your wonderful work and desert your beautiful house?!" But if you were to mention in front of them that you are going not to Jihad in the Path of Allāh, but to spend a summer vacation or take a course in some worldly sciences, you would see their faces brighten, and they would help you with their time, money and counsel, and they would wish they could accompany you, even if only in your suitcase. *«If it had been an immediate gain and a short journey, they would certainly have followed you, but the long journey seemed too far to them.»* [9: 42]

Beware, my brother, of being turned away from the obligation of Jihad by these enemies, who have concealed themselves in the cloak of family and friends. Beware of letting them deceive and mislead you. *«O you who believe! Among your wives and your children are some who are your enemies, so beware of them.»* [64: 14]

*And that when death inserts its claws  
You find that all amulets are worthless*

Woe to you that death has taken you so quickly and in such a short period of time. It is then that you will realize that you are the loser and that those slackers and deserters around you swindled you. You will realize that you aren't the same as those Mujahideen you used to love, even if you resemble them in your points of view and your claiming to love going forth in the Path of Allāh; whereas they died the way they loved and wished for, you died the way the slackers around you love. And there is neither power nor strength except with Allāh.

I swear by He in whose Hand is my soul that this worldly life is narrower and more restrictive for the believer than a mother's womb is for her fetus, and that the easiest way for him to free himself from this restriction is martyrdom in the Path of Allāh. In fact, the blood, suffering and pain which the foetus goes through in order to reach the life of this world is a horrible tragedy when compared with the killing of the martyr, for whom it feels like nothing more than an insect bite. This is death in the culture of the Mujahid: a transition from one deficient life to another perfect one, which, although he hasn't experienced it, he knows by heart, through its description: *«And He will bring them in unto the Garden which He has made known to them.»* [47: 6].

Demolish the barriers, cross the borders, defy all the security apparatuses, and burst out from all directions towards a Paradise as wide as the Heavens and the Earth which Allāh has prepared for His slaves the martyrs. *«You will soon remember what I say to you. And I entrust my affair to Allāh»* [44: 40].

*«And Allāh has full power and control over His affairs; but most among mankind do not know [that].»* [12: 11]

Make a bomb in the kitchen of your Mom  
The AQ Chef

# PRESSURE COOKER BOMB

A detailed yet short, easy-to-read manual on how to make a bomb using ingredients found in a kitchen.

[Adapted from Inspire Issue 1]

Can I make an effective bomb that causes damage to the enemy from ingredients available in any kitchen in the world? The answer is yes.

BUT BEFORE HOW, WE ASK WHY

It is because Allāh says: ﴿So fight in the cause of Allāh; you are not held responsible except for yourself. And inspire the believers [to join you] that perhaps Allāh will restrain the [military] might of those who disbelieve. And Allāh is greater in might and stronger in [exemplary] punishment﴾ [4: 84]

And it is also because every Muslim is required to defend his religion and nation. The Jews and Christians have dishonored the Muslims, desecrated our holy places, and cursed the beloved Prophet ﷺ. Today they are holding contests for the 'best' blasphemy of Muḥammad ﷺ.

The Western governments today are waging a relentless war against Islam. They brought together a coalition and have the support of their population in invading and destroying Muslim land.

But there is a small band of sincere Muslims who are striking back at the enemy. The efforts of this small group of Mujahideen have had a great effect in hindering the plans of the enemy. So now we have a balance of forces. As they kill Muslims, Muslims respond by killing among them. This is the effect of a small group of sincere Mujahideen, so what would the effect be if the Muslim *ummah* wakes up?

There are many Muslims who have the zeal to defend the *ummah* but their vision is unclear. They believe that in order to defend the *ummah* they need to travel and join the

mujāhidinelsewhere and they must train in their camps. But we tell the Muslims in America and Europe: There is a better choice and easier one to give support to your *ummah*. That is individual work inside the West such as the operations of Niḍāl Ḥassan and Faisal Shahzād. With a few 'failed' operations - as they claim - the director of national intelligence was forced to resign. With a few more 'failed' operations we may have the resignation of the President of the United States.

My Muslim brother, who wants to support the religion of Allāh: do not make too many calculations and forecasting of the results and consequences. It is true that `Umar al-Fārūq and his brothers Niḍāl Ḥassan and Shahzād were imprisoned, but they have become heroes and icons that are examples to be followed. We ask Allāh to grant them steadfastness. If they were sincere and steadfast, their imprisonment would be an increased status for them. The ḥadīth says: "If Allāh loves a people, He put them through trials." The result of these trials would be the highest levels of Paradise, the pleasure of Allāh, heaven in the hearts in this world and eternal pleasure .

My Muslim brother: we are conveying to you our military training right into your kitchen to relieve you of the difficulty of traveling to us. If you are sincere in your intentions to serve the religion of Allāh, then all what you have to do is enter your kitchen and make an explosive device that would damage the enemy if you put your trust in Allāh and then use this explosive device properly.

## HERE ARE THE MAIN QUALITIES OF THIS BOMB

- Ingredients are easily available.
- Buying these ingredients does not raise suspicion.
- It is easily disposed of if the enemy searches your home. Sniffing dogs are not trained to recognize them as bomb making ingredients.
- In one or two days the bomb could be ready to kill at least ten people. In a month you may make a bigger andmore lethal bomb that could kill tens of people.

THE BOSTON BROTHERS

The Pressure Cooker Bomb was successfully used by the Boston Brothers during the 2013 Boston Marathon. Dzakhar Tsarnaev (may Allah hasten his release) wrote regarding the motive for the Boston operation: "The U.S. Government is killing our innocent civilians, I can't stand to see such evil go unpunished, we Muslims are one body, you hurt one you hurt us all."

### UNDERSTANDING EXPLOSIONS

There are two types of explosions

**First:** Chemical explosion. This explosion causes great pressure that would kill living beings within a certain radius. Examples are all the military grade explosives such as TNT, C4 and RDX.

**Second:** Mechanical explosion. This results from the burning of an inflammable material within a confined space. An example is putting gunpowder inside an iron pipe with a small opening enough only for a fuse. When the gunpowder is ignited, great pressure results from the gunpowder turning into gases and which result in the exploding of the iron pipe, turning it into shrapnel flying at high speed

1. **INFLAMMABLE SUBSTANCE** (eg substance found in head s of matches, gunpowder or fireworks powder)
2. **DECORATION LAMP** (what is normally used for christmas trees)
3. **IRON PIPE OR PRESSURE COOKER** (depending on the scale of operation)

### SHOPPING LIST

Be security concious when buying these items e.g large amount of fireworks or matchsticks powder might be needed, so do not buy from the same shop as for fireworks you might wait for a festive season.

a

### PREPARING THE INFLAMMABLE SUBSTANCE

This substance is a mixture of two ingredients:

- The substance found in heads of matches
- Sugar

- Strike the head of the match softly with anything (e.g. a tube) to break up the inflammable substance.
- Grind the substance and filter it to obtain a fine powder.
- In the picture you will see the fine powder and you add to it sugar equivalent to  $\frac{1}{4}$  its quantity.
- Mix the two substances until they become uniform in color.

b

### PREPARATION OF THE DECORATION LAMP

We will proceed to break the top of the lamp by heating it. Make sure the filament does not break. The filament is the part which when electricity passes through it, it glows and produces light

- Heat the head of the lamp until it becomes black.
- Place the lamp immediately in water while still hot.
- Strike the tip of the lamp and it would break, do not break the filament inside.

c

### PREPARATION OF THE IRON PIPE / PRESSURE COOKER

You may substitute the inflammable substance extracted from matches by gunpowder used in cartilages. You may also use powder from fireworks instead.

Note: You do not have to use one substance. You may mix together the substance from matches, gunpowder and fireworks but when doing so you need to mix it well.

### IRON PIPE FINAL PREPARATIONS

- Pour some of the inflammable substance into the lamp. Do so gently in order not to tear the filament, which is very sensitive. The device would not explode if the filament is torn.
- Insert the lamp into the pipe with the wires sticking out.
- Fill in the pipe with the inflammable substance. Avoid having any of the substance on the treads of the pipe so that it won't ignite when closing the pipe.
- Wrap tape around the pipe to close the hole which was drilled into the pipe only leaving the wires sticking out. he tape will surround the wires – closing any gaps in the pipe hole – and not be wrapped over them.

### PRESSURE COOKER PREPARATIONS

- Pour some of the inflammable substance into the lamp. Do so gently in order not to tear the filament, which is very sensitive. The device would not explode if the filament is torn.
- Insert the lamp into the pressure cooker as shown with the wires sticking out.
- Fill in the pressure cooker with the inflammable substance.

**NB\* For the pressure cooker, large amounts of the inflammable substance will be needed**

## PREPARING THE ELECTRICITY SOURCE

a

### INTRODUCTION

The importance of the electricity source in the explosive device is that it is the key in igniting the device. The electricity that is sufficient to turn on the small lamp is sufficient to cause the explosion. This electric current may reach to the lamp directly through a battery, by a timed circuit or by a remote controlled circuit.

We have chosen for you the timed circuit as it is simple. We set up a circuit which is composed of:

- A 9V battery.
- A wire connected to the "+" of the battery and a nail (the red wire)
- A wire connected to the "-" of the battery and a test lamp (the black wire). Note: you may use any small lamp here. Take notice that this is not the lamp we filled before with the inflammable substance.
- We connect from the other pole of the lamp a green wire. When this wire touches the nail the circuit is closed and the lamp should light.

**Note: the colors of the wires here are for demonstration purposes.**

b

### PREPARING THE CLOCK

Disassemble the clock.

If you want to set up the explosion to occur within an hour, cut off the arms of the clock except for the minutes arm. If you want more than an hour, you cut off all arms except for the hour arm.

## PREPARING THE CLOCK CONT...

Make a hole in the face of the clock to insert the nail.

Insert the nail through the hole and connect the green wire to the hour arm. Make another hole if necessary for the green wire.

## PREPARING THE CLOCK CONT...

The idea is to let the clock to mechanically close the circuit at a desired duration. for an hour, the minute clock should be set an hour before the desired time. for anything more than an hour the hour clock should be used instead.

displays the electric circuit in the clock when the hour arm hasn't touched the nail.

displays the electric circuit in the clock when the hour arm has touched the nail, lighting up the lamp. in this example the bomb would have been set for 3 hrs

## PREPARING THE CLOCK CONT...

Take notice of the following:

- Make sure to cover all wires and also cover the battery in order to prevent any unwanted electric connections.
- Test the clock at least ten times on a test lamp to make sure it is working properly.
- It is better to use a small clock if concealment is important to you.

Now disconnect the test lamp from the circuit and connect instead of it the two wires coming out of the iron pipe. When the circuit is connected as in step two, the device would explode. You may hide the 9V battery inside the clock if you want to.

Same step may be used to connect the Pressure Cooker.

## IMPORTANT

It is important to put a quantity of small nails on the surface of the iron pipe from the inside. You do that by sticking them to the wall of the pipe by using glue. The pipe used here is a 2 inch one. The inflammable substance used to fill it was extracted from 80 match heads.

The explosion that results from this device is a mechanical one. It results from the pressure caused by the gases and therefore it only works if contained in a high pressure environment. So you may use iron pipes, pressure cookers, fire extinguishers, or empty propane canisters. The point is that the inflammable substance needs to be contained in a strong container that would allow the pressure to build up and thus cause a damaging explosion.

**However in order to fill for example, a pressurized cooker with the substance from matches, it may take a lot of matches to do so and therefore you may want to use gunpowder or the powder from fireworks.**

You need to also include shrapnel. The best shrapnel are the spherical shaped ones. As you can see in the figures, you need to glue them to the surface of your canister. If steel pellets are not available you may use nails instead.

This is a 2-inch iron pipe with nails inside it. You fill in the inflammable substance afterwards.

The previous three points illustrated by the previous images are for shrapnel used with a gas canister.

- The shape of nails.
- You may place the nails in a mold and pour glue over them and when dry you remove them from the mold.
- Wrap the molded nails around the canister.

After wrapping the shrapnel around the canister, empty the canister from the gas and open the valve and fill it with the inflammable substance. Insert the lamp with the wires sticking out just as you did earlier with the iron pipe.

With that said, here are some important steps to take for an effective explosive device:

- Place the device in a crowded area.
- Camouflage the device with something that would not hinder the shrapnel such as cardboard.

Pressure cooker ready for connection

Sideview illustration of pressure cooker bomb

The pressure cooker is the most effective method. Glue the shrapnel to the inside of the pressurized cooker then fill in the cooker with the inflammable material. Insert the prepared lamp into the inflammable material gently in order not to break the filament of the lamp. Then have the wires sticking out of the hole in the lid of the cooker. Wrap some tape around the hole to seal any openings and connect the wires to the electric source in the same way as we did with the iron pipe.

# CAR BOMBS INSIDE AMERICA

A detailed yet short, easy-to-read manual on how to make a bomb using ingredients found in a kitchen.

[Adapted from Inspire Issue 12]

CAN AN IRAQI STYLE CAR BOMB BE PREPARED BY A LONE MUJAHID IN THE U.S.

HERE IS THE AQ CHEF'S RECIPE

Inspire Magazine's goal is to empower Muslim. And what is empowerment without being strong, powerful and intelligent? In this section, we give you strength, power and intelligence. Believe me, using car bombs gives you all that.

It is absolutely simple. And we will make it simpler for you, *biidhnillāh*, so that every Muslim, who loves Allāh and His Messenger, and wants to accelerate Islam's victory, becomes able to prepare it, even if this is the first military material his eyes has set on.

This recipe gives you the ability to make a car bomb even in countries with tight security and surveillance. The reason is: primary materials are easily available and they do not raise suspicion. These materials are not explosives in nature. But after you have assembled and prepared them, they turn into a bomb ready for destruction, *biidhnillāh*.

This type of car bomb is not usually used to destroy buildings, however it is very effective in killing individuals. The merit of this method is that you can prepare a car bomb in a few hours during the availability of the primary materials. So there is less worry about your personal security.

My Muslim brother, before you start reading the instructions, remember that this type of operation if prepared well and an

appropriate target is chosen and Allah decrees success for you, history will never forget it. It will be recorded as a crushing defeat on the enemies of Islam.

## EXAMPLES OF TARGETS:

### In America:

- Times Square
- Casinos and Night Clubs in Las Vegas
- Oil tankers and trains
- Georgia Military College, Milledgeville, Georgia
- United States Air Force Academy, Colorado Springs
- General Atomics HQ , San Diego, California, U.S.

### In Britain:

- Royal Military Academy Sandhurst - Camberley
- Marks and Spencer stores - during Friday prayers (Muslims will be praying)
- Thames House, London

### Globally:

- Israeli, British and American companies
- Tourist resorts where Israelis, Britons or Americans stay

## THE IDEA

### THE GENERAL IDEA

We are going to mix two gases; one an oxidizer, another a fuel, in one sealed container that will change the normal combustion of the two materials into an explosive combustion. The explosion will start as soon as a flame emitted from a torch comes in contact with the gas that will burn rapidly under very high pressure.

### OPERATIONAL IDEA

- Pure 'Oxygen' was used as the oxidizing gas, cooking gas 'Propane' as the fuel, and Cooking Gas Cylinder as the sealed container.
- An amount of gas was discharged from the Cooking Gas Cylinder.
- The highly pressurized Oxygen Cylinder was connected to the Cooking Gas Cylinder.
- When the safety valves of both the cylinders were opened, Oxygen Gas moved into the Cooking Gas Cylinder directly. This was caused by pressure difference.
- The pressure inside the Oxygen Cylinder was very high compared to that inside the Cooking Gas Cylinder. We know that gas moves from a high pressure region to a lower pressure region.

Cooking Gas Cylinder (used as Propane)

Oxygen Gas Cylinder (used as Oxidizing)

## THE GENERAL IDEA

### PRESSURE DIFFERENCE

While the tap is closed, the pressure in the yellow balloon is zero, while the pressure in the red balloon is one.

Closed Tap

Open Tap

But when we open the tap, gas moves from the high pressure region (red balloon) to the low pressure region (yellow balloon) in such the pressures in the two balloons become equal.

## BAROMETERS

### PRESSURE UNITS

Pressure measuring instruments are called 'barometers'.

The standard atmosphere that we live in is a unit of pressure.

- The standard atmosphere is almost equal to one bar (1 bar  $\approx$  1 atm).
- In this procedure we are going to use 'bar' as the standard pressure unit for the gas cylinders.
- When you come across any other unit in our
- barometer e.g. Pascals, kiloPascals or psi, convert it into bar.
- Conversion is very simple, all you have to do is use a converter in your Windows OS calculator (click view-->unit converter).
- A Cooking Gas Cylinder can sustain up to 12 bars.
- An Oxygen Cylinder can sustain up to 135 bars.
- 'kg/cm<sup>2</sup>' is the same as atm (atmosphere)

### EXAMPLES OF BAROMETERS

1. **REGULATOR:** This barometer is sometimes called a 'regulator'. We will use it in these instructions. The meter on the right measures the pressure in the oxygen cylinder - its maximum measurement is 28,000 kiloPascals (kPa), equivalent to 280 bars. While the meter on the left measures the cooking gas cylinder - its maximum measurement is 1400 kPa, equivalent to 14 bars.
2. **BAROMETER:** This tire barometer can measure up to 11 bars. We will use it in our procedure.

Regulator

## BAROMETERS CONT...

### HINTS

- You can use oxygen from medical or welding cylinders.
- You can also use other fuels instead of propane, e.g. hydrogen, methane or acetylene.
- These fuels give better results, if security measures allow you to buy

3. **REGULATOR 2:** The meter on the right measures a maximum of 25 atmospheres – almost equivalent to 25 bars, while the meter on the left measures a maximum of 2.5 atmospheres – almost equivalent to 2.5 bars.

Regulator 2

4. **TIRE BAROMETER 2:** This tire barometer can measure a maximum of 16 bars.

### MIXING THE GASES

#### DID YOU KNOW ?

that you can mix the two gases in one Welding-Oxygen Cylinder? An oxygen cylinder can sustain more than 12 Cooking Gas Cylinders of 25-liters. BUT do not forget the balloon principle.

- Discharge gas from the Cooking Gas Cylinder until only 3 bars are left in it.
- Note: to be sure of the required amount, you have to measure the pressure after every few moment of releasing the gas. Use a barometer suitable for the cooking gas cylinder.
- Note: If you do not have the suitable barometer, there is a simple way to measure the pressure by a tire barometer ( fig1.1)
- Take a normal cooking gas regulator and cut its connecting nut off. Use a hacksaw to cut at the yellow mark. (fig 1.2)
- Take a tire's inner tube and cut the valve stem off, in such its lower part fits the nut. (fig 1.3)
- Fit the valve stem into the nut precisely.
- Apply epoxy from the outside to provide a strong adhesion between the valve stem and the nut and prevent the gas from leaking. Also apply a little of epoxy inside – Do not block the hole. Now the nut is ready to use with the tire barometer and the Cooking Gas Cylinder. (fig 1.4)

### INSERTING OXYGENE GAS

fig 3.2 Sealing

Insert 9 bars of Oxygen Gas into the Cooking Gas Cylinder. This will make the total pressure inside the Cooking Gas Cylinder 12.

**NB: Avoid heat and fire sources while inserting or discharging gas!**

### PREPARING THE IGNITION LAMP

#### DID YOU KNOW ?

that you can mix the two gases in one Welding-Oxygen Cylinder? An oxygen cylinder can sustain more than 12 Cooking Gas Cylinders of 25-liters. BUT do not forget the balloon principle.

fig 3.1 Match in Lamp

fig 3.2 Sealing

The ignition lamp is the tool that emits a flame into the mixed gas inside the Cooking Gas Cylinder, to detonate the bomb.

- Break the top of the decoration lamp by heating it. Make sure the filament does not break.
- Fill the lamp with match (from matchstick heads). (fig 3.1)
- Seal it with a tissue. (fig 3.2)

### CONNECTING THE OXYGEN CYLINDER TO THE COOKING GAS CYLINDER.

#### SECURITY MEASURES

- If you are planning to hide your identity and cover your trail during the operation, begin from the time you set your feet to purchase the ingredients.
- Wipe your fingerprints.
- Use a car that will not reveal your identity.
- Avoid cctv cameras.
- Be artistic and creative in avoiding detection

Connecting Nut

Note: to be able to insert Oxygen Gas into the Cooking Gas Cylinder, you should have the connecting nut illustrated in the photo.

If the connector is unavailable, or buying it may draw attention to you, you can use a normal cooking gas regulator with a bit of modification. You will have to drill a hole from the inside to let Oxygen Gas pass into the cylinder.

Modified cooking Gas Regulator - Interior and Exterior spot to be drilled

e

## INSERTING THE IGNITION LAMP

### IMPORTANT

It is better to start pre-paring the car bomb few hours before the operation, because the security forces (if they come into your work place/house) cannot accuse you of prepar- ing a bomb, especially if you distribute the ingredients in your house well.

Ignition lamp in Connecting-Lamp

Ignition lamp in Modified-Cooking Gas Regulator

- Insert the lamp into the connector, while the wires are out.
- Apply epoxy to seal the connector or the modified regulator.
- Fasten the connector to mixed gas cylinder.

f

## FASTEN THE CONNECTOR TO MIXED GAS CYLINDER

A Cooking Gas Cylinder Bomb. You have completed the preparation of one cylinder, now prepare the other cylinders in the same way (to make a total of not less than six).

### MAXIMUM CARNAGE

It is better to use shrapnel (nuts, ball bearings, nails or any other) on the outer surface of the cylinders.

- The best way to arrange the shrapnel is in circles.
- In this car bomb you can use up to 100,000 pieces of shrapnel.
- A hand grenade usually contains 360 shrapnel only.

## PREPARING THE CAR BOMB

Prepare no less than six 25-litre cylinders.

- Place them closely to each other. Leave as little space between them as pos-sible.
- Connect the ignition Lamps.

## PREPARING THE ELECTRIC CIRCUIT: (CONNECTING THE COOKING GAS CYLINDERS)

Every ignition lamp has two wires. Connect the wires on the right to the positive pole (+) of the battery (12v or ore), and the wires on the left to the negative pole (-).

### REMEMBER

If you intend to hide your identity buy a car without any formal paperwork being exchanged.

### IMPORTANT

If it possible, carry out an experiment even if in a smaller scale in a safe place, because an experiment will give you lot of experi- ence before the main operation.

When these two wires are connected to the battery the car will explode.

- THAT IS WHY YOU SHOULD PUT A SWITCH ON THE POSITIVE SIDE SO THAT YOU CAN CONTROL WHEN TO DETONATE THE CAR BOMB, AND PROTECT THE CIRCUIT FROM UNINTENDED DETONATION.
- Note: It is recommended to test the electric circuit using another decoration lamp of the same type used for ignition.
- If you are a martyrdom bomber and you want to detonate the car bomb directly, use a manual switch that is operated by hand directly.
- If you want to make it a time bomb, use a time switch (you can refer to Inspire Magazine issue 1 and 9 for details).
- If you want a remote detonation, use a toy-car remote, alarm remote, garage remote or any other. You can test the remote with a lamp (or refer to issue 8 for details).
